National Student Wearable Art Showcase
2027 Privacy Collection Notice

Australian Wearable Art Festival
in partnership with St Andrew's Anglican College

This notice explains how Australian Wearable Art Festival Pty Ltd (AWAF) collects and handles personal information and files provided through the NSS 2027 entry and finalist processes. It applies to students, Student Team members, nominated adult contacts and parents or guardians.

What AWAF collects and why

AWAF collects the student and education details, adult and parent/guardian contact details, artwork information, supporting files and declarations supplied through these processes. AWAF uses this information to assess and administer entries, process payments, communicate about entries, obtain required authority and consent, and manage finalist participation. This includes model and production arrangements and any accessibility or practical support requested.

Storage

Entry information may be stored in AWAF's website, Google Workspace, Google Sheets, payment and file-storage systems.

Access and sharing

Relevant information may be accessed by AWAF directors and authorised team members, the Selection Panel and service providers where needed to assess or administer the entry or manage participation. Accessibility or support information must not be provided to the Selection Panel.

Student communication and guardian authority

AWAF will ordinarily communicate through the Nominated Adult Contact. A student email will be used additionally only where it has been provided and copying has been requested. Parent or guardian details are used to request and record the required authority for a student under 18 and for consent-related communication. A teacher or other nominated adult who is not the student's parent or guardian cannot provide that authority on the family's behalf. Personal student social-media accounts are not required for entry.

Accessibility and support information

This information is optional and is used only to discuss or arrange practical support. A diagnosis or medical history is not required. Access is limited to authorised people who need it to arrange support; it will not form part of selection or judging material.

Photography and publicity

Entry material is used confidentially for selection, administration and record-keeping. Publication of finalist information and material, and photography and film permissions, are managed through a separate consent process appropriate to each student's age and circumstances. This privacy acknowledgement does not replace those permissions.

Marketing

Student, adult and guardian contact details will not be used for unrelated marketing without separate permission. Any optional marketing consent is separate from the required privacy acknowledgement.

Questions, access and correction

To ask a question about personal information, or request access to or correction of that information, contact wendy@australianwearableart.com.au.
